Chicago is a global economic center with the third-largest labor pool in the United States. With a highly diverse population and one of the world’s most diversified and balanced economies, with no single industry employing more than 14% of the workforce, Chicago can and should lead the way in being an inclusive marketplace where everyone thrives.

Inclusion Chicago advances diversity, equity, and inclusion by partnering with organizations looking for improved experience and results. Through a set of customized solutions including consultation and training, we provide support in developing data-oriented action plans, and driving organizational change.

As one of the largest human services organizations in the region, YWCA Metropolitan Chicago has been at the forefront of advancing social equity for more than 140 years. Through a range of training and services, Inclusion Chicago helps organizations create the necessary cultural shift that will support inclusive policies and practices.
